Re: Suncon reference

To Whom It May Concern:

We have done business continually for 30 years with Suncon. That statement alone should tell you all you need to know. A developer and contractor still talking to each other after 30 years is pretty remarkable but that's what you get with Suncon.

They are straight up, goals oriented, get the job done, don't nickel and dime the client kind of people. I cannot recommend them strongly enough.

If you need more color on this, feel free to call any time.

Seth
